// ABOUT US

The rising star of the metal detector industry Nokta Detectors was established in 2003 in Istanbul, Turkey. Since its foundation, Nokta Detectors has been carrying out all its business operations built on principles of innovation, high performance, quality and customer satisfaction and has become a global brand and the preferred choice of many professional detectorists as well as hobbyists worldwide.

With the goal of being a game changer in the industry and a technology leader, Nokta Detectors has expanded its R&D team in 2011 and made significant investments in terms of developing new detection technologies followed by the acquisition of Makro Detectors in December 2014. Today, Nokta Detectors exports Nokta Makro branded detectors to more than 100 countries in 6 continents through its strong distributor and dealer network.

Nokta Makro Detectors invests a big portion of its revenues in R&D activities. In parallel with the principle of advanced engineering, Nokta Makro Detectors has all the necessary technological and quality infrastructure and is an ISO9001 Certified company. Nokta Makro Detectors was also certified as an official R&D Center by the Ministry of Science, Industry and Technology of Turkey in 2017.

Customer satisfaction is the biggest source of motivation for the company. Products in different price categories designed based on customer requests and feedbacks meet the needs of all end-users. They attract worldwide attention not only with their technology and high performance but also with their design and ergonomics.

EXPORTING TO

 SIMPLEX SERIES

SIMPLEX⁺

SIMPLY UNRIVALLED

THE FIRST WATERPROOF DETECTOR
ON THE MARKET OFFERING EXTREME DEPTH AND
HIGH-END FEATURES AT AN ENTRY-LEVEL PRICE!

SIMPLE ENOUGH FOR BEGINNERS,
YET IMPRESSIVE ENOUGH FOR **EXPERTS**!

Are you new to metal detecting and simply need an easy to use detector?

You cannot afford a high-end detector but you simply want extreme depth and basic features of a high-end device?

Need a waterproof detector at an affordable price?

If you said yes to one of the above, SIMPLEX⁺ is the sole choice that covers it all.

We are proud to offer our first entry level detector, the SIMPLEX⁺, which makes quality metal detecting available and affordable for all users.

SIMPLEX⁺ is a turn-on & go detector with auto ground balancing! It boasts preset search modes, including a beach mode, in a very easy-to-use, single menu design.

Whether you are searching for coins, artifacts or jewelry on land or underwater, SIMPLEX⁺ is the most cost-effective yet durable detector featuring a modern and lightweight style.

Wireless
Audio Ready

Built-in
Rechargeable
Battery

Lightweight
(1.3kg/2.9lbs)

IP68

Fully submersible up to 3 meters (10ft) and protected from total dust ingress.

Search Modes

All Metal / Field / Park 1/ Park 2 / Beach

Iron Volume

Turns off or adjusts the volume of the low iron tone.

Notch Discrimination

Discriminates Target IDs of unwanted metals.

Frequency Shift

Get rid of EMI easily by shifting the frequency in small increments.

Built-in Wireless Module

Compatible with 2.4GHz Nokta Makro Green Edition Wireless Headphones.

Vibration

SIMPLEX+ will vibrate upon detection of target! Ideal for the hearing impaired users as well as for detection underwater.

Fabulous Lighting for Night & Underwater Use

SIMPLEX+ has it all - LCD Backlight, Keypad Backlight and LED Flashlight.

Retractable Shaft

Shaft retracts down to 63 cm (25"). Great for easy transport, storage as well as diving!

Lightweight [1.3kg / 2.9lbs]

Well balanced - Enjoy detecting for extended hours without fatigue.

Built-in Lipo Battery

Easily charge it with a USB charger (5V 2A) or a USB powerbank.

Online Firmware Updates

Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

COIN & RELIC DETECTORS

 SIMPLEX SERIES

TECHNICAL SPECIFICATIONS

Operating Principle	: VLF
Operating Frequency	: 12kHz
Search Modes	: 5 (Field / Park 1 / Park 2 / Beach / All Metal)
Audio Tones	: 3
Notch Filter	: Yes
Pinpoint	: Yes
Frequency Shift	: Yes
Vibration	: Yes
Sensitivity Setting	: 7 levels
Target ID	: 00-99
Search Coil	: Waterproof DD Search Coil 28 cm / 11" (SP28)
Display	: Graphic LCD
Backlight	: Yes
Keypad Backlight	: Yes
LED Flashlight	: Yes
Weight	: 13 kg (29lbs.) including the search coil
Length	: 63 cm - 132 cm (25" - 52") adjustable
Battery	: 2300mAh Lithium Polymer
Warranty	: 2 years

PACKAGE CONTENTS – SIMPLEX+

Waterproof DD Search Coil & Cover
28 cm / 11" (SP28)

USB Charging & Data Cable

6.3 mm (1/4") Headphone Adapter
Allows land-use headphones to
be used with the Simplex

PACKAGE CONTENTS – SIMPLEX+ WHP

Waterproof DD Search Coil & Cover
28 cm / 11" (SP28)

2.4 GHz Wireless Headphones
Green Edition

USB Charging & Data Cable

Simplex Cap

OPTIONAL

Waterproof DD Search Coil & Cover
22 cm / 8.5" (SP22)

Waterproof DD Search Coil & Cover
24 x 13 cm / 9.5" x 5" (SP24)

GREAT ADD-ONS

Waterproof Headphones
Comfortable design for land and
underwater use.

COIN & RELIC DETECTORS

 ANFIBIO SERIES

ANFIBIO
Series

**WHEN DEPTH, SPEED & STURDINESS MATTER...
THE WAY TO GO IS THE ANFIBIO!**

With all its new settings and features, plus 7 optional coils to choose from, the rugged new Anfibio will be your best detecting buddy.

Whether you are at a park, ancient field or beach, searching for coins, relics or jewelry, the Anfibio Series will deliver superior depth, speed and performance.

No need to get frustrated navigating through multiple screens – The Anfibio's single menu design offers very simple operation and saves valuable detecting time.

Going underwater? Not a problem with the Anfibio, either...

If metal detecting is your passion, the way to go is the Anfibio!

IP68

Fully submersible up to 5 meters (16.4ft) and protected from total dust ingress.

Excellent Discrimination & Unmasking Ability

Save time by detecting the targets you want while spending less time digging.

New Design Coil

The new 28 cm (11") coil offers that extra depth you are looking for!

Advanced Beach Mode

Very stable operation in dry sand, wet sand and underwater.

New EUD Function

Extra Underground Depth - Detect certain type of metals masked by ground conditions and/or at fringe depths.

Fast Recovery Speed

Get ready to find out what other metal detectors missed amongst trash and iron!

3 Selectable Target ID Depth Levels

Adjusts the depth level that the detector displays on an ID for a detected target.

Search Modes

Anfibio Multi: 9 modes (GEN Delta/2, 3, 4, 5, 99 Tone /Beach/Deep/Cache)

Anfibio 14: 8 modes (GEN/2, 3, 4, 5, 99 Tone/Beach/Deep)

Anfibio 19: 5 modes (GEN/2, 3 Tone/Deep/Cache)

2.4 GHz Wireless Headphones Included*

Enjoy wireless freedom with no latency.

Online Firmware Updates

Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

Vibration

Anfibio will vibrate upon detection of target! Ideal for the hearing impaired users as well as for detection underwater.

Keypad Backlight

An awesome feature for those night hunts!

Retractable Shaft

Shaft retracts down to 76cm (30"). Great for easy transport, storage as well as diving!

Built-in Lipo Battery

Easily charge it with a USB charger (5V 2A) or a USB powerbank. Provides up to 19 hours of use**.

COIN & RELIC DETECTORS

Backlight : Yes

Keypad Backlight : Yes

Weight : 1.7 kg (3.7lbs.) including the search coil

Length : 76 cm – 136 cm (30" – 53") adjustable

Battery : 3700mAh Lithium Polymer

Warranty : 2 years

PACKAGE CONTENTS

Waterproof DD Search Coil & Cover
28 cm / 11" (AF28)

2.4 GHz Wireless Headphones
(Green Edition)

USB Charging & Data Cable

GREAT ADD-ONS

Waterproof AA Battery Case
Provides the option of using 4 x AA
batteries (batteries not included).

6.3 mm (1/4") Headphone Adapter
Allows land-use headphones to
be used with the Anfibio.

Waterproof Headphones
Comfortable design for land and
underwater use.

7 OPTIONAL COILS TO CHOOSE FROM

Waterproof DD Search Coil & Cover
13 cm / 5" (KR13)

Waterproof Concentric Search Coil
& Cover 18 cm / 7" (KR18C)

Waterproof DD Search Coil
& Cover 19 x 10 cm / 7.5" x 4" (KR19)

Waterproof Concentric Search Coil
& Cover 23 cm / 9" (AF23C)

Waterproof DD Search Coil & Cover
24 x 13 cm / 9.5" x 5" (KR24)

Waterproof DD Search Coil & Cover
35 x 33 cm / 13.5" x 13" (AF35)

Waterproof DD Search Coil & Cover
40 x 35 cm / 15.5" x 14" (KR40)

COIN & RELIC DETECTORS

 KRUZER SERIES

kruzer
SERIES

BRINGS HUNTED OUT SITES BACK TO LIFE!

All-Terrain Multi-Purpose Detector Offering the Best Performance & Depth at the Best Price.

Kruzer - 14kHz
Multi Kruzer -
MULTI FREQUENCY
(5/14/19kHz)

GET READY FOR A WHOLE NEW METAL DETECTING EXPERIENCE WITH THE NEW KRUZER SERIES!

The Kruzer will bring hunted out sites back to life by offering the best performance and depth combined with its robust and waterproof design.

Are you a beach hunter? We did not forget about you, either! The Kruzer features a new advanced beach mode that provides a very stable performance on the wet salt beach and even underwater.

IP68
Fully submersible up to 5 meters (16.4ft)
and protected from total dust ingress.

**Excellent Discrimination &
Unmasking Ability**
Save time by detecting the targets you
want while spending less time digging.

**High Performance
and Unmatched Depth**
Uncover deep coins and relics that
other detectors simply cannot detect.

Advanced Beach Mode
Very stable operation in dry sand,
wet sand and underwater.

NEW! E.U.D. Function
Extra Underground Depth - Detect
certain type of metals masked by
ground conditions and/or at fringe
depths.

Fast Recovery Speed
Get ready to find out what other metal
detectors missed amongst trash and iron!

3 Selectable Target ID Depth Levels
Adjusts the depth level that the detector
displays on an ID for a detected target.

6 Search Modes
Gen (All Metal) / 2 Tone / 3 Tone / 4 Tone
/ Beach / Deep

2.4 GHz Wireless Headphones Included*
Enjoy wireless freedom with no latency.

Online Firmware Updates
Stay up-to-date with firmware updates
(via USB on PC) and get the most out of your
detector.

Vibration
Kruzer will vibrate upon detection of target!
Ideal for the hearing impaired users as well
as for detection underwater.

Lightweight (1.4kg / 3.0lbs)
Well balanced - Enjoy detecting for
extended hours without fatigue.

Built-in Lipo Battery
Easily charge it with a USB charger
(5V 2A) or a USB powerbank. Provides up
to 19 hours of use**.

*Wireless headphones are not waterproof and cannot be used underwater.
** Battery life on the multi Kruzer will depend on the operating frequency used.

COIN & RELIC DETECTORS

IMPACT

THE MOST POWERFUL ALL-ROUND METAL DETECTOR EVER MADE!

Tested in 5 continents by more than 30 experts, engineers and users.

Uncover deep hidden treasures with the new IMPACT Multi Frequency Metal Detector by Nokta. The IMPACT combines multiple detectors in one and utilizes cutting edge technology, enabling a unique yet easy - to - use detector experience for new to experienced detectorists.

The IMPACT boasts (12) search modes designed to hunt out different targets such as coins, relics and deep treasure caches. It also operates extremely well in different terrains including (but not limited to) wet beach sand and parks, allowing you to search without any further adjustment if you wish.

Featuring (3) powerful operating frequencies, online firmware update (via PC USB) capability and robust design. If you are looking for depth and advanced discrimination ability, the IMPACT - just like its name - will make a great impact on your future detecting finds.

Multi Frequency

5kHz - 14kHz - 20kHz

Flashlight

COIN & RELIC DETECTORS

12 Search Modes: 2 Non-motion Modes (with audio discrimination) 2 All Metal Modes (with audio discrimination) 8 Discrimination Modes - 2 Tone / 3 Tone / 4 Tones / 99 Tones / Deep / Conductive Ground / VLX1 and VLX2

Ground Balance with 3 Options: Automatic, Manual, Tracking

Notch Filter: Discriminates single or multiple Target IDs of unwanted metals by silencing them or producing an iron tone.

Tone Break: Adjusts the break points of the target response tones on the Target ID range.

Iron Audio (Fe Vol): Turns off or adjusts the volume of the low iron tone.

Audio Tone: Changes the frequency of target and threshold tones (150Hz - 700Hz).

iSAT: Allows for a stable operation of the device by eliminating false signals caused by high mineralization and hot rocks in the all metal and discrimination modes as well as eliminating threshold drifts caused by ground and temperature changes in the static modes.

Magnetic Mineralization Indicator: Shows mineralization intensity of the ground.

Extra features at the push of a button: Audio Boost, ID Normalization, Target ID Depth Level.

Backlight (Bright):

FD / Save: Easily saves your settings or restores factory defaults.

RACER 2

RACER2

YOU ASKED. WE DESIGNED.

Boosted with extra features for digging more treasures and less trash.

Built on the cutting-edge RACER technology, the RACER 2 is boosted with all the features users need for finding more coins, relics and jewelry.

RACER 2 will once again fascinate all current and new RACER users with its extraordinary performance and new features such as Notch Filter, Iron Audio, Tone Break, iSAT (Intelligent Self-Adjusting Threshold), advanced discrimination ability as well as its new DEEP mode and waterproof search coil.

KIDS DETECTORS

MINI HOARD

MIDI HOARD

KIDS DETECTORS

MINI HOARD & MIDI HOARD

Mini HOARD & Midi HOARD

WORLD'S FIRST WATERPROOF KIDS DETECTOR SERIES!

*For the young
treasure hunters
of the future...*

Our most loved ones...kids!
Hooked on technology and disconnected
from nature... and we, as parents try to encourage them
to go outside, explore and play and teach them history.
Yet, it seems hopeless at times.

Introducing the world's first
waterproof kids' detector series!
Mini and Midi Hoard

WATERPROOF
UP TO 1m./3ft.

The most fun way to introduce
kids to metal detecting...

Release the
discoverer in your
child... see the
excitement when
they uncover
their treasure...

The hobby they can
enjoy away from the crowds...
...and the only hobby that
can pay back!
Sometimes by putting
a big smile on their
face... or sometimes with
even more!

Share your
hobby with
your kids to
build great family
memories.

*Easy to use...
lightweight
and
compact!*

Let your kids **DISCOVER** a world full of **ADVENTURE, EXPERIENCE** and **EXCITEMENT** of discovery right outside their door!

Impressive build quality combined with child friendly design.

Finds, discriminates and pinpoints... just like an adult's detector!

DEEP TREASURE DETECTORS

INVENIO SERIES

DEEP TREASURE DETECTORS

INVENIO SERIES

INVENIO

**WORLD'S FIRST REAL TIME SMART DETECTOR & IMAGING SYSTEM
PROVIDING THE SHAPE, DEPTH, DIMENSIONS AND DISCRIMINATION OF
UNDERGROUND METALS AND GROUND ANOMALIES / CAVITIES.**

**THE START OF A NEW ERA IN METAL DETECTION!
GO BEYOND BASIC BEEPS AND TARGET ID NUMBERS.**

INVENIO is the first and single revolutionary step taken towards turning a dream into reality in the metal detector industry!

INVENIO represents one of the most dramatic advances in metal detection technology since conventional metal detectors first appeared on the market in the 1930s. While many new features and advancements in technology have been introduced since, Invenio provides the first major step forward in meeting consumer expectations.

While the competition has simply pushed the existing patents and technology forward; none have gone much beyond generating basic beeps and IDs for targets.

On the other hand, users have been expecting a lot more from a detector:

- To discover deeper targets
- To know what type of a metal the detected target is
- To see the real depths of targets
- To see the real shapes of targets
- To determine the dimensions of targets
- To detect ground anomalies / cavities

Nokta Makro Detectors, since its foundation, has been taking steps towards turning this dream of users into reality. After years of extensive Research & Development and advanced engineering studies, Nokta Makro has achieved the development of the world's first Smart Detector & Imaging system - the Invenio. Nokta Makro owns the whole technology and know-how used in the Invenio for which 3 different patents are applied for.

INVENIO is designed as a platform that can be advanced and it is planned to be integrated with all hobby detectors (coin and relic) as well as gold nugget detectors in the future.

Artificial Intelligence

The Artificial Neural Network enables the device to provide superior shape extractions as well as depth indications by utilizing adaptive learning algorithms!

Multi-Purpose

Targets that you can detect with the Invenio: Deep treasures, caches, coins, relics, ground anomalies/cavities such as underground caves, tunnels etc.. In short all you are looking for underground!

Excellent Discrimination and Unmasking Ability

Save time by detecting the targets you want while spending less time digging.

High Performance and Unmatched Depth

Uncover deep treasures other detectors simply cannot detect.

Fast Recovery Speed

Get ready to find out what other metal detectors missed amongst trash and iron!

3 Non-Motion Search Modes

Basic / Expert / Ground Anomaly & Cavity

3 Motion Search Modes

All Metal / Fast / Deep

Archive

You can save all 3D graphs and screenshots and transfer them to your PC if you wish.

17 Languages

2.4GHz Wireless Connection

The Invenio system box and shaft communicate wirelessly. In addition, users who do not prefer wired headphones can purchase the optional 2.4GHz wireless headphones.

Online Firmware Updates

Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

Vibration

When this feature is active, Invenio will vibrate upon target detection. An essential feature for hearing impaired users and noisy surroundings.

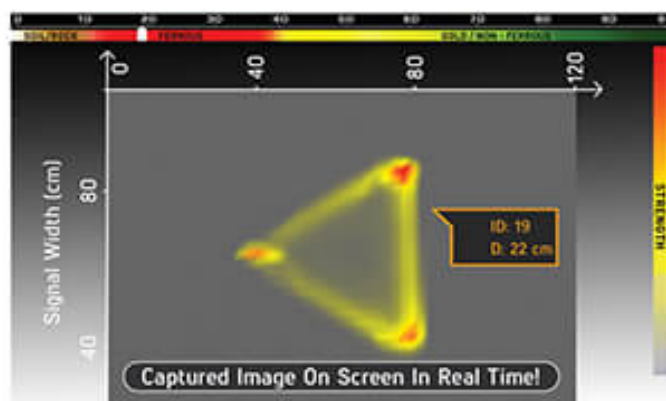

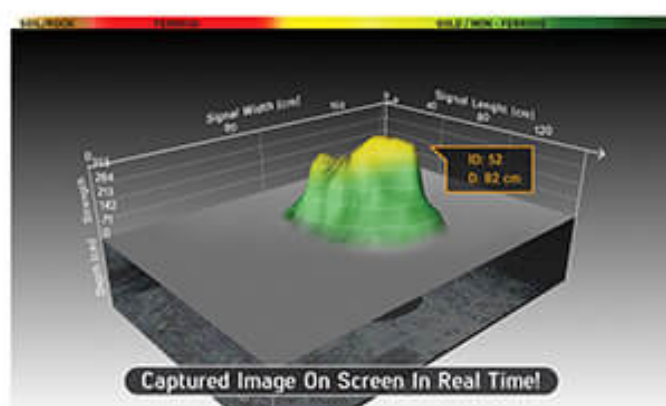

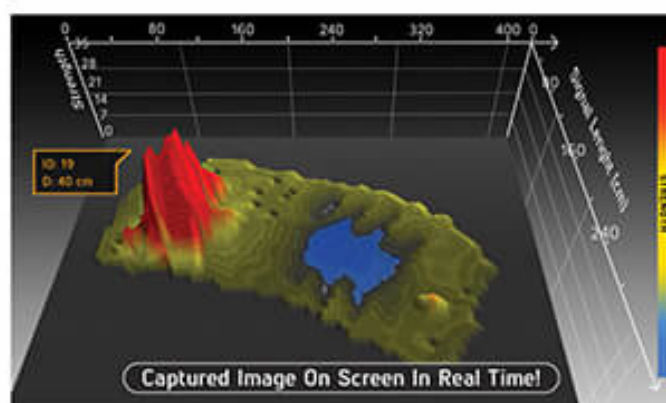

LED Flashlight and Screen Backlight

Invenio's screen backlight and the flashlight, which illuminates your scan area, enable you to detect in the dark as well.

DEEP TREASURE DETECTORS

INVENIO SERIES

IPTU SENSOR

(Integrated Positional Tracking Unit)

Developed by Nokta & Makro Detectors, the IPTU unit, with the help of the integrated sensors, computes the right-left, forward-back movements of the search coil precisely and determines its location and height above the ground.

With the IPTU sensor, you can follow the start and finish points of the scanned area and view the locations of detected targets. In addition, you can determine the width and the length of the scanned area, the target depth and shape as well as the dimensions with the help of the IPTU sensor

NEW
TECHNOLOGY

IDEAL FOR:

- DEEP TREASURE HUNTERS
- ARCHEOLOGISTS
- MUNICIPALITIES
- UTILITY COMPANIES
- CSI & LAW ENFORCEMENT AGENCIES

DEEP TREASURE DETECTORS

 INVENIO SERIES

TECHNICAL SPECIFICATIONS

Operating System	: Embedded Linux System
Graphic Process	: OPEN GL
Sensor	: IPTU (Integrated Positional Tracking Unit)
Operating Principle	: VLF
Operating Frequency	: INVENIO: 14kHz – INVENIO Pro: 5kHz / 14kHz / 20kHz
Audio Frequencies	: 150Hz – 700Hz adjustable

GOLD DETECTORS

GOLD KRUZER
GOLD RACER
AU GOLD FINDER

GOLD DETECTORS

 GOLD KRUZER

**Gold
kruzer**

THE MOST ADVANCED GOLD AND MICRO JEWELRY DETECTOR

Gold Prospecting at its Best!

Operating at 61kHz high frequency, the Gold Kruzer will bring hunted out gold fields back to life by offering the best sensitivity to tiniest nuggets. Apart from its exceptional performance in harsh ground conditions and hot rocks, its robust and waterproof design makes the Gold Kruzer the most advanced gold and micro jewelry metal detector on the market.

TECHNICAL SPECIFICATIONS

Operating Principle	: VLF
Operating Frequency	: 61kHz
Audio Frequencies	: 150 Hz – 700Hz adjustable
Search Modes	: 4
Iron Audio	: Yes
Tone Break	: Yes
Notch Filter	: No
Ground Balance	: Automatic / Manual / Tracking
Pinpoint	: Yes
Frequency Shift	: Yes
Vibration	: No
Gain Setting	: 01-99
Target ID	: 00-99
Search Coil	: Waterproof Concentric Search Coil 26 x 14 cm 10" x 5.5" (GK26C) Waterproof DD Search Coil 19 x 10 cm 7.5" x 4" (GK19)
Display	: Custom LCD
Backlight	: Yes
Weight	: 1.4 kg (3 lbs.) including search coil and batteries
Length	: 111 cm – 135.5 cm (44" – 53") adjustable
Battery	: 3700mAh Lithium Polymer
Warranty	: 2 Years

PACKAGE CONTENTS

Waterproof DD Search Coil & Cover
19 x 10 cm / 7.5" x 4" (GK19)

Waterproof
Concentric Search Coil & Cover
26 x 14 cm / 10" x 5.5" (GK26C)

2.4 GHz Wireless Headphones
(Green Edition)

USB Charging & Data Cable

Optional
Waterproof DD Search Coil & Cover
40 x 33.5 cm / 15.5" x 14" (GK40)

Optional Waterproof AA Battery Case
Provides the option of using 4 x AA
batteries (batteries not included).

IP68
Fully submersible up to 5 meters (16.4ft) and protected from total dust ingress.

Excellent Discrimination Ability
Just detect those wanted gold targets and ignore iron.

High Performance and Unmatched Depth
Uncover deep gold nuggets or micro jewelry other detectors simply cannot detect.

NEW! E.U.D. Function
Extra Underground Depth - Detect small gold nuggets masked by hot rocks and/or at fringe depths.

4 Search Modes
Gen (All Metal) / Fast / Boost / Micro

2.4 GHz Wireless Headphones Included*
Enjoy wireless freedom with no latency.

Online Firmware Updates
Stay up-to-date with firmware updates (via USB on PC) and get the most out of your detector.

Lightweight (1.4kg / 3.0lbs)
Enjoy detecting for extended hours without fatigue.

Built-in Lipo Battery
Easily charge it with a USB charger (5V 2A) or a USB powerbank. Provides up to 19 hours of use.

GOLD DETECTORS

GOLD RACER

**Gold
RACER**

**FIND THE TINIEST NUGGETS, MICRO JEWELRY
AND EVEN COINS WITH THE MOST SENSITIVE AND
VERSATILE GOLD DETECTOR EVER MADE!**

Built on the cutting-edge RACER technology, the Gold RACER offers advanced gold prospecting capabilities. Operating at 56 kHz frequency, the Gold RACER detects the tiniest nuggets while ignoring harsh ground conditions and hot rocks in gold fields around the world.

Apart from its exceptional ground handling capability, the waterproof search coils make the Gold RACER an excellent gold detector for use in streams and rivers, too.

Advanced features such as iSAT (Intelligent Self-Adjusting Threshold), iMask (Intelligent Masking), Tone Break, Audio Boost, superior discrimination ability as well as its improved ergonomics make this detector the most versatile detector on the market for finding nuggets, micro jewelry and even coins.

EASY TO USE SINGLE MENU DESIGN

Sensitivity
Adjusts the depth of the device

Threshold and iSAT
Intelligent self-adjusting threshold control allows for a smooth and noise-free threshold sound in challenging terrains by avoiding disruption of the threshold in the all metal mode caused by high mineralization

FD / Save
Easily saves your settings or restores factory defaults

Extra features at the push of a button:
Audio Boost, Audio Tone, Frequency Shift, LED Flashlight

3 Search Modes
All Metal • DISC.1 • DISC.2

Digital Target ID and ID Filtering

iMask
Eliminates false signals caused by ground noise or hot rocks when searching in discrimination modes

Tone Break
Adjusts the break points of the target response tones on the Target ID range

Extended Battery Life
Offers 25-30 hours continuous operation

Ground Balance with 3 Options:
Automatic, Manual, Tracking

Magnetic Mineralization Indicator
Shows mineralization intensity of the ground

GOLD DETECTORS

 AU GOLD FINDER

AU GOLD FINDER

AU GOLD FINDER METAL DETECTOR

The AU Gold Finder Metal Detector is Nokta Makro's one of premiere gold detecting machines operating in 56kHz. The AU Gold Finder is guaranteed to find more gold! From the USA / Africa / South America / to Australia, many professional gold detectorists are reporting amazing performance with the AU Gold Finder.

KEY FEATURES

- 1. Ferrous / Gold Non-Ferrous LED Lights**
Bright color LEDs indicate ferrous or non-ferrous targets
- 2. Sensitivity**
Higher level of adjustment allows the machine to sense targets deeper
- 3. Discrimination Filter**
Helps you reject unwanted targets
- 4. ISAT**
Maintains the steadiness of the Threshold tone in All Metal Mode
- 5. IMASK**
Eliminate false signals caused by ground mineralization or hot rocks
- 6. Ground Balance - Auto / Manual**
Ignore the masking effect that iron ground minerals have over metal targets
- 7. Boost**
Amplify weak detection response for very small / deep targets
- 8. Tracking**
Auto-adjusts ground balance to compensate for ground mineralization changes

TECHNICAL SPECIFICATIONS

Operating Principle	: VLF
Operating Frequency	: 56 kHz
Search Modes	: 3 (All Metal / Disc 1 Fast / Disc 2 Deep)
Discrimination	: Audio / Led
Ground Balance	: Automatic / Manual / Tracking
Sensitivity Range	: 1 - 10
Discrimination Filter Range	: 0 - 40
Audio Boost	: Yes
Search Coils	: Waterproof DD Search Coil 26 x 14 cm / 10" x 5.5" (AU26) Waterproof DD Search Coil 13 cm / 5" (AU13)
Weight	: 1.5 kg (3.3 lbs.) including search coil and batteries
Length	: Adjustable 120 cm - 140 cm (47" - 55")
Battery	: 4 x AA Alkaline
Warranty	: 2 Years

PACKAGE CONTENTS

56 kHz Frequency
56 kHz gives you the ultimate in sensitivity and depth.

IP54
IP54 Protects your metal detector from dust and water spray from any direction.

Discrimination
Filter out unwanted items when detecting.

(2) Coil Bundle Package
Comes with (2) waterproof DD Search Coils (10 x 5.5" and 5") including search coil covers.

Visual LED Discrimination
Know if it's ferrous or non-ferrous before you dig.

Audio Boost Switch
Audio boost weak signals from small or deep targets.

SCUBA DETECTORS & PINPOINTERS

PULSEDIVE SCUBA DETECTOR

PULSEDIVE POINTER

NOKTA POINTER

SCUBA DETECTORS & PINPOINTERS

PULSEDIVE SCUBA DETECTOR & POINTER 2-IN-1 SET

THE BEST ADDITION TO YOUR DETECTING GEAR!

Whether you are a professional diver, a vacationer or simply a detectorist who loves to search both on land and underwater, the PulseDive 2-in-1 Set will be the best addition to your gear this year!

TECHNICAL SPECIFICATIONS

Operating Principle	: Pulse Induction
Operating Frequency	: 3kHz
Frequency Shift	: Yes
Waterproof	: Up to 60m (200ft.)
Built-in Wireless Module	: Yes
Detection Modes	: Audio / Vibration / Audio + Vibration / LED
Sensitivity	: 5 levels adjustable
Length	: Scuba Detector: 39 cm (15.3") Pinpointer: 28 cm (11")
Weight	: Scuba Detector: 419 gr (14.8oz) including the coil cover Pinpointer: 286 gr (10oz) including the hard-shell case
Battery	: 1650mAh Lithium Polymer
Charging Time	: ≈2 hours
Warranty	: 2 years

PulseDive Set is available in 2 colors: Black or Yellow. Product shown is the yellow version.

PACKAGE CONTENTS

OPTIONAL COILS

Patented Design

This innovative design allows for a quick transformation of the device from a Scuba Detector into a Pinpointer and vice versa in a matter of seconds.

IP68

Waterproof up to 60m (200ft.)

Pulse Induction

This powerful technology allows for very stable operation in saltwater or in any type of soil.

Built-in Wireless Module

Compatible with Nokta Makro 24 GHz Green Edition Wireless Headphones.

Detection Alerts & Indicators

1. Audio Only
 2. Vibration Only
 3. Audio & Vibration
- LED Indicator in addition to any of the above

LED Flashlight

Easily see your target at night or when hunting underwater.

Rapid Retune

Ensures stable operation of the device with the push of one button.

Dive Mode

Provides easier operation under water by locking the keys and preventing them to be pressed by water pressure while deep diving.

Lost Alarm

After 5 minutes of inactivity, the device emits an audible alarm and LED starts flashing.

Replaceable Hard-Shell Case

The replaceable pointer coil comes with a hard-shell protection case to prevent wear of the detection tip.

Nokta Makro Detectors reserves the right to change the design, specifications or accessories without notice and without any obligation or liability whatsoever.

SCUBA DETECTORS & PINPOINTERS

PULSEDIVE SCUBA DETECTOR

LET TREASURE HUNTING BE YOUR NEXT UNDERWATER ADVENTURE!

The PulseDive Scuba Detector gives you the benefits of high end underwater metal detectors at a fraction of the cost and size. Lightweight & rugged with audio, LED light and vibration alerts!

**DISCOVER
HIDDEN TREASURES
BELOW THE SURFACE!**

SCUBA DETECTORS & PINPOINTERS

 NOKTA POINTER

Nokta Pointer

THE HARMONY OF EXCELLENT WATERPROOF DESIGN & PRECISION

TECHNICAL SPECIFICATIONS

Frequency	: 11.6 kHz
Metal Detection	: Audio and / or Vibration Alert
Sensitivity Adjustment	: Manual
Coil Interface Blocking	: Yes
Dimensions	: 24 x 4.8 cm (9.4" x 1.9") including the hard-shell digger case
Detection Tip	: 9.3 cm (3.7")
Weight	: 235 gr (8.3oz) including the battery & hard-shell case
Working Temperature	: -4 °F / +122 °F (-20 °C / +50 °C)
Battery	: 9V Alkaline Battery
Battery Life	: +30 hours
Warranty	: 2 Years

PACKAGE CONTENTS

Waterproof (IP 67)

Use it on land and underwater with ease. Fully waterproof to meet the IP67 rating.

360°

360° Detection Tip

Enables you to locate your target quickly and easily in the hole. Flip it horizontally to scan a larger area.

Sensitivity Control

The +/- buttons adjust the sensitivity to achieve the ultimate performance in any environment and offer improved detection of nuggets and other small targets.

LED Light

Easily see your target at night or when hunting in dark places. The powerful, built-in, LED flashlight illuminates the spot you are searching.

Audio Alert and Vibration Options

3 different target alert options:

1. Audio Only
2. Vibration Only
3. Both Audio and Vibration

Lost Alarm & Auto Shut-Off

After 5 minutes of inactivity, the pinpointer emits an audible alarm and LED starts flashing. After 5 minutes of alarm, the device shuts off automatically to save battery life.

Coil Interference Blocking

When it is off, the coil's magnetic transmission is disconnected. This eliminates the possibility of interference from other metal detectors and prevents the Nokta Pointer from being detected as a target.

Replaceable Hard-Shell Case

Nokta Pointer comes with two hard-shell protection cases to prevent wear of the detection tip. One of them also includes a built-in scraping blade.
