

## Low Noise Metallurgical Sample Polisher Multifunction for Materials Polishing

### Product Details:

Place of Origin: **China**

Brand Name: **HUATEC**

Model Number: **PG Series**

### Payment & Shipping Terms:

Minimum Order Quantity: **1 SET**

Packaging Details: **Wooden Case**

Delivery Time: **7-10 days**

Payment Terms: **TT**

**Large Image :** [Low Noise Metallurgical Sample Polisher Multifunction for Materials Polishing](#)

### Detailed Product Description

Low Noise Metallurgical Sample Polisher Multifunction for Materials Polishing

#### Description:

During Metallurgical Sample preparation, polishing is primary. After polishing grinded samples, we can get very bright surface like mirror. PG-1 was designed after collecting many customers' suggestions. PG-1 operates steadily in low noise, and easily to use and maintain. The size of the polishing wheel and the transmission power are bigger than other products in china. PG-1 can adjust to all kinds of materials polishing work.

#### Main parameters

Polishing Wheel Diameter: 220mm  
Platen speed: 900rpm, 1400rpm (custom-made)  
Electromotor: YS7116 0.2kW 380V/220V 50Hz  
The Total Dimensions: 325x325x320mm  
The Net Weight: 14Kg

#### 2. PG-1A Metallurgical Sample Polisher

**Description:**

During Metallurgical Sample preparation, polishing is very primary. After polishing grinded samples, we can get very bright surface like mirror. Collecting many customers' suggestions, PG-1A as designed. PG-1A operates steadily in low noise, and easily to use and maintain. The size of the polishing wheel and the transmission power are bigger. PG-1 adjusts to all kinds of materials polishing work. PG-1A is equipped with polishing water supply system. PG-1A is the ideal equipment for metallurgical sample polishing.

**Main parameters**

Polishing Wheel Diameter: 220mm  
Platen speed: 900rpm, 1400rpm (custom-made)  
Electromotor: YS7116 0.2kW 380V 50Hz  
The Total Dimensions: 460x340x330mm  
The Net Weight: 22Kg

1. PG-2 Metallurgical Sample Polisher

Description:

PG-2 was designed after collecting many customers' suggestions. PG-2 has nice appearance, logical structure, low noise, and it is easy to operate and maintain. PG-2 can be used for 2 persons at the same time. The size of the polishing wheel and the transmission power are bigger than other products in China. PG-2 can adjust to all kinds of materials polishing work. PG-2 is the ideal equipment for metallurgical sample polishing. PG-2 has 2 types, floor type and table type, for choice.

Main parameters

Polishing Wheel Diameter: Dual wheels 220mm

Platen speed: 900rpm, 1400rpm (custom-made)

Electromotor: YS7116 0.2kW 380V/220V 50Hz

The Total Dimensions: 800x420x920mm

The Net Weight: 38Kg

1. **PG-2A Metallurgical Sample Polisher**

**Description:**

PG-2A was designed after collecting many customers' suggestions. PG-2A has nice appearance, logical structure, low noise, and it is easy to operate and maintain. PG-2A can be used for 2 persons at the same time. The size of the polishing wheel and the transmission power are bigger than other products in China. PG-2A can adjust to all kinds of materials polishing work. PG-2 is the ideal equipment for metallurgical sample polishing. PG-2A has 2 types, floor type and table type, for choice.

Main parameters

Polishing Wheel Diameter: Dual wheels 220mm

Platen speed: 900rpm, 1400rpm (custom-made)

Dual speed: 900/1400rpm

Electromotor:YS7116 0.2kW 380V/220V 50Hz  
The Total Dimensions:800×420×200mm  
The Net Weight:33Kg
