

## Specification

|                   |                        |
|-------------------|------------------------|
| Model             | SH-OS-41D              |
| Maximum Viscosity | 40,000 cps             |
| Maximum Torque    | 95 Ncm                 |
| Motor             | DC 100W                |
| Speed Range       | 50~30,000 R.P.M        |
| Display           | Digital Display        |
| Controller        | Analogue Phase Control |
| Electrical Supply | 220V, 50/60Hz          |
| Stirring Capacity | 60 L (H2O)             |
