Battery Electrode And Aluminum Laminated Film Cutting Machine

1 This battery cutting machine is used for lithium battery anode/cathode electrode and aluminum laminated film Automatic continuous roller cutting.

2 For this automatic cutting machine, the cutting length can be set, and its cutting quantity can be counted and set automatically, it is a very useful machine for battery production line.

3 This battery cutting machine is used after electrode coating for cutting the electrode to big pieces for rolling press simply.

- Brand: TOB NEW ENERGY
- Item No.: TOB-MY-C
- Order(Moq): 1
- Payment: L/C, T/T, Western Union
- Product Origin: China
- Shipping Port: XIAMEN
- Lead Time: 30 days

Product Detail

500mm Width Automatic Battery Cutting Machine For Lithium Battery Electrode And Aluminum Laminated Film Roller Cutting

SPECIFICATIONS

1 This battery cutting machine is used for lithium battery anode/cathode electrode and aluminum laminated film Automatic continuous roller cutting.

2 For this automatic cutting machine, the cutting length can be set, and its cutting quantity can be counted and set automatically, it is a very useful machine for battery production line.

3 This battery cutting machine is used after electrode coating for cutting the electrode to big pieces for rolling press simply.

Model	TOB-MY-C-30	TOB-MY-C-50
Source voltage	AC220V/110V 50/60HZ	
Power	200W	
Warranty	One year limited warranty with lifetime support	
Applicable width	300mm	500mm
Cutting length	400mm adjustable	500mm adjustable
Applicable roller diameter	400mm	400mm
Cutting speed	500 times/H	400 times/H
Air supply	0.6-0.8MPa	
Dimension(L*W*H)	700*650*1850mm	1000*2850*1200mm
Weight	650kg	720kg
