Vacuum Mixing Equipment With Handwheel

This TOB-ZKJB system vacuum mixing equipment is a high efficient equipment with a set of vacuum mixing and dispersion function together, it is suitable for lithium electricity experiment process for anode and cathode paste mixing process, and also other glue, chemical and other industries.

- Item No.:TOB-ZKJB-02
- Order(Moq):1set
- Payment:L/C,T/T,Western Union, Paypal
- Product Origin:China
- Shipping Port:XIAMEN
- Lead Time:7days

Product Detail

1-10L Volume Customized Vacuum Mixing Equipment With Handwheel Control Without Connecting Air Supply

SPECIFICATIONS

1 This TOB-ZKJB system vacuum mixing equipment is a high efficient equipment with a set of vacuum mixing and dispersion function together, it is suitable for lithium electricity experiment process for anode and cathode paste mixing process, and also other glue, chemical and other industries.

2 The vacuum mixer is with handle wheel, which can uplift the cylinder by hand, without connecting with air compressor.

3 The vacuum mixing machine is programmable in speed, time, and rotating direction, and water cold stainless steel tank promise high efficient in mixing.

4 The TOB-ZKJB system vacuum mixing machine is excellent for preparing LiCoO₃, LiFePO₄, Phosphors and ceramic slurry without gas bubble. And the processed material results in the better dispersion and uniformity.

Model	Vacuum mixing equipment TOB-ZKJB-02
Source voltage	AC 220V/110V, 50HZ/60HZ
Power	750W
Warranty	One Year limited warranty with lifetime support
Mixing speed	0-1400 r/min, Through the inverter speed control
Effective volume	2L, 1-10 Liters Customized according request
Mixing barrel opening mode	Arms straight line guide rail hand cover rising, without connecting air compressor
Mixing barrel size	Φ125mm(Diameter)*200mm(Hight)
Mixing time set	0-99H can be set
Heating temperature	0-80°C Can be set
Weight	About 90kg
Dimension(H*L*W)	600*500*300mm, 24"*20"*12"

Advantage	<p>1-10 liter 304 stainless steel container with double layer water cooling jacket.</p> <p>Advanced soft sealing type to keep vacuum pressure maintain on -98kpa up to 24 hours.</p> <p>Double Step Rotary Vane Vacuum Pump, 254L/m, is included for immediate operation</p> <p>Programmable controller to set time, speed, rotation direction.</p> <p>With time setting function</p> <p>Container is opened or closed by electric Hand (no air pump is required any more)</p>
