Drying Oven

Microprocessor controller (with timing function)

Summary:

Provided for desiccation, torrefaction, wax-melting and sterilization in mining enterprises, laboratories and scientific research institutes

Features:

- •Polished stainless-steel chamber
- •Latest PID controller
- •Uniform distribution of air temperature
- •Forced-air convection
- •Double Layer glass door, larger viewing window.
- •Independent temperature-limiting alarm system ensures experiments run safely. (option)
- •RS485 connector is option which can connect computer to record the parameters and the variations of temperature. (Option)
